

Die Cutting Presses  
**SCHWABE**  
Shaping the Products of the World

## Kiss Cutting / Narrow Web - Hydraulic Die Cutting Press

### Press Specifications

- Cutting Force: 30 - 100 metric tons
- Bed Depth: 500 x 800 mm
- Bed Width: 500 x 1000 mm
- Feed Systems : Roll Feed, Belt Feed, Unwind & Rewind capabilities

### Cutting Materials

Abrasives, Foam , Gaskets, Labels, LCD Film, Non-Woven

### Cutting Surfaces:

- Cutting Boards / Pads
- Hardened Ground Steel Plates
- PET Cutting Belts

Contact : [sales@freemanschwabe.com](mailto:sales@freemanschwabe.com)

### Features & Benefits

- **High Speed Hydraulics** can produce 100 cuts per minute for 10mm cutting stroke and 20mm feeding distance to maximize productivity
- **Server Motor Positioning System** maintains precise positioning accuracy which can deliver 20% savings in material cost
- **Robust Construction** maintains parallelism and reduces wear on the cutting dies
